

Flexible, scalable, reliable global communications

Atmosphere® Voice Services is a powerful communications platform that delivers global voice connectivity over an all-IP network. Our reliable and flexible platform eases the transition to IP-enabled cloud services, provides scalability, and creates significant cost savings.

Deploy quicker

Manage costs

Increase uptime

Scale on demand

Manage your own service

Need the ability to make changes on demand? Our self-service portal puts service management at your fingertips. Easily manage users, place orders, make payments, and view call reporting on demand.

Connect to any technology or equipment

Deploy confidently with a leader in voice over IP since 2003. Whether you have an IP PBX, legacy PBX, or want to deploy cloud communications, Atmosphere® Voice Services is everything you've come to expect from a carrier and so much more.

Choose your connection

We make it easy to connect to our services. Choose the option that fits your needs and budget:

- ✓ [Over the Top](#) — reliable voice at the best cost
- ✓ [Private Connection](#) — custom-built dedicated connectivity
- ✓ [MPLS](#) — add us as a node to get the most out of your investment

Enjoy peace of mind with reliability and security

Ensure business continuity with redundant trunks and geographic routing capabilities. Our TLS/SRTP encryption keeps your network and data safe and sound.
