

# 6 BENEFITS INTELEPEER CUSTOMERS GET WITH THEIR CLOUD PHONE SERVICE

Looking for new ways to upgrade your communications or exploring a move to the cloud for your phone service? Here are the top 6 reasons why IntelPeer is the best provider for all of your communication needs:

## Reliability and Security

Enjoy peace of mind with IntelPeer's resilient and secure network that delivers high-quality voice services with 99.999% uptime. We keep your data safe and sound with TLS/SRTP encryption and support for VPN and Direct Connects.

## Flexible

Communications shouldn't be one-size-fits-all. With our Atmosphere® Voice, you get the flexibility to choose between premise, cloud, or hybrid deployments. Easily move between deployment options as your business needs change over time.

## Scalability

As your business grows, your phone system should be able to keep up. Add and manage your service when you need to. Quickly adjust capacity to meet volume spikes. That's the beauty of the cloud.

## Disaster Recovery

Prepare for natural disasters or outages before they strike with the ability to control call routing and failover on the fly. Our triple-redundant and geographically diverse design ensure uninterrupted communications, no matter what comes your way.

## Exceptional Support

Our award-winning customer support team is available 24x7x365 to address any technical issues. You get personalized service and a speedy resolution. To us, you're more than a trouble ticket number.

## Room to Grow

Moving your phone service to the cloud is just the first step. You'll be in good shape to accelerate your communications strategy with our advanced capabilities such as additional channels, automated routing and self-service, conversational AI, analytics, and more. The sky is the limit!

No matter what stage of the voice journey you're in, look no further than IntelePeer for your trusted partner. We'll bring the expertise along with reliable and secure services for cloud, on-prem, and hybrid deployments, all through a single platform.
